Title: Regency Proclamation

Author: Aleph Aeirs  
-----

Aware of the  
circumstances in which  
the Society of Arcane  
Shadows (SAS) is  
situated, we have sought  
the way to proceed with  
the liberation of Skara  
Brae. The demands and  
exchanges and diplomatic  
entreaties on behalf of  
our Liege Lord and our  
Governor-Regent, and the  
free people of Britannia,  
have brought us to this  
declaration.

Among the actions of  
unlawful occupation that  
our community is asked  
to denounce, we speak  
today against any who  
would seek to justify  
SAS control over Skara  
Brae, which the vast  
majority of the population  
cannot bear any longer. It  
is not so much the  
physical presence of this  
group which wounds the  
dignity of the free people  
of Britannia, as it is the  
symbol of evil which it  
represents, and the  
monstrous domination  
which SAS exercises over  
all sectors of Skara Brae  
life. SAS control is not  
about to be relaxed, and  
the peoples of Skara  
Brae have been held,  
against their will, for  
long enough.

SAS are the purveyors  
of draconian tactics, of  
repression and of terror.  
SAS holds clear disdain  
for the lasting Virtues  
and Principles upon which

Britannia is founded.

The Society of Arcane Shadow's violent action against the citizens of the commonwealth of Skara Brae is naturally considered by the Regency Protectorate as an exceedingly serious menace to the future of our realm. We view the SAS occupation of Skara Brae as an immediate danger to Britannia as a whole, and hereby demand the complete withdrawal of any and all SAS governmental claims and functions within the city of Skara Brae posthaste.

Let this declaration now stand as a matter of public record, and official statement of the Government of the Regency and the people of our great nation. Let this document bear the seal of all Regency Officials, Loyal Vassals, and allies who would stand against the tyranny and oppression of the Society of Arcane Shadows.

Written this twenty-eighth day of December, in the waning three-hundred-tenth year of our Sosarian calendar, at the behest of our Governor-Regent, Dayel Stormcrow,
